

JUDY CHENG

Judy Cheng is an exceptionally talented artist; her brush work is exquisite: confident, fluid and expressive. Judy developed her artistic skills and articulated style under the tutelage of renowned local artist Gordon Smith. Her work continues to evolve from Smith's ongoing encouragement and support, and her current collection falls into the style of "In the School of Gordon Smith". Undoubtedly, her paintings casually remind the viewer of Smith's work; but, upon closer study, they are distinctively different. Judy enjoys capturing the natural beauty of our local landscapes from Whistler to the University Endowment lands, and she captures it eloquently. Of painting, Judy says: "You begin to see beyond the subject and color, and eventually you just allow the paint to move you. Painting has given me a different perspective of looking at your surroundings. I see art in everything and it inspires me to continue to create, experience and enjoy."
